## AUTHORIZATION TO RELEASE INFORMATION AND ASSIGNMENT OF INSURANCE

I hereby assign my insurance benefits under the above plan to Dr. Elizabeth Buchert. I understand that I am financially responsible for any charges not covered by this assignment. I will be responsible for any/all charges that are not considered to be a covered benefit under my health insurance plan. I also hereby authorize the release of information requested in the course of my examination as needed.

.....

## ACKNOWLEDGEMENT OF NOTICE TO PRIVACY PRACTICES

I understand that, under the Health Insurance Portability & Accountability Act of 1996 (HIPAA), I have certain rights to privacy regarding my protected health information. I understand that this information can and will be used and disclosed to:

- \*Evaluate my health, diagnose my medical condition, and provide treatment
- \*Obtain payment from third party payers
- \*Conduct normal operation of our medical practice, such as quality assessments, physician certifications, appointment and surgery scheduling, etc.
- \*Fulfill other purposes which are listed in our Notice of Privacy Practice. I may contact this organization at any time at the address above to obtain a current copy of your Notice of Privacy Practices.

.....

## CONSENT TO OBTAIN EXTERNAL PRESCRIPTION HISTORY

I authorize Dr. Elizabeth Buchert and her staff to view my external prescription history via the RxHub service. I understand that my prescription history over several years from other unaffiliated medical providers, insurance companies, and pharmacy benefit managers may be viewable by Dr. Buchert and staff.

*My signature certifies that I have read, and understand the scope of my consent and that I authorize all access.*

## PATIENT PORTAL

Dr. Elizabeth Buchert, Renee Beyer-Boudreaux FNP and Mint Health use a patient portal for secure viewing of clinical information and communication between the clinic and the patient. At your initial appointment, you will be web-enabled and required to provide a personal (non-work) email address. You will use the username and password provided to log into the portal and gain access to your personal health record and other helpful features from any personal computer or laptop with an internet connection.

You will use the patient portal for many reasons including:

- Request appointments
- Request prescription refills
- Update demographic information (address, telephone number, email address, etc.)
- Ask questions and send information to Dr. Buchert, Renee and the clinic staff
- Receive and review laboratory test results
- Communication from Dr. Buchert or Renee FNP, regarding treatment for abnormal lab results, changes in medications or supplements, additional testing that may be required, etc.
- Review and pay patient statements

Use of the patient portal will result in significantly improved communication between you and our office. If you need to refresh your memory on how to access the portal, the Front Desk staff will be happy to provide you with an instruction sheet.

It is extremely important that you provide our office with an accurate email address and that you check your inbox on a regular basis for messages from the portal and follow the instructions forwarded in the message regarding treatment and follow-up on lab testing.

***Patient Acknowledgement and Agreement:***

I acknowledge that I have read and fully understand the information contained on this form. I agree that it is my responsibility to check my email inbox for messages from the portal and to follow through with Dr. Buchert and/or Renee's recommendations.

I have read this form and the above information and accept the conditions.

## Nutritional Supplements

According to the Federal Food, Drug, and Cosmetics Act, as amended, §201(g)(1), the term *drug* is defined as an “article intended for use in the diagnosis, cure, mitigation, treatment, or prevention of disease.” Technically, vitamins, minerals, trace elements, amino acids, herbs, or homeopathic remedies are not classified as drugs. However, these substances can have significant effects on physiology and must be used rationally. In this office, we provide nutritional counseling and make individualized recommendations regarding use of these substances in order to upgrade the quality of foods in a patient’s diet and to supply nutrition to support physiological and biomechanical processes of the human body. Although these products may also be suggested with a specific therapeutic purpose in mind, their use is chiefly designed to support given aspects of metabolic function. Use of nutritional supplements may be safely recommended for patients already using pharmaceutical medications (drugs), but some potentially harmful interactions may occur. For this reason, it is important to keep all of your healthcare providers fully informed about all medications and nutritional supplements, herbs, or hormones you may be taking.

As a service to you, we make nutritional supplements available at our office. We purchase these products only from manufacturers who have gained our confidence through considerable research and experience. We determine quality by considering (1) the quality of the science behind the product; (2) the quality of the ingredients themselves; (3) the quality of the manufacturing process; and (4) the synergism among product components. The brands of supplements we carry in our facility are those that meet our high standards and tend to produce predictable results. **You are under no obligation to purchase nutritional supplements from our clinic.**

While these supplements may come at a higher financial cost than those found on the shelves of pharmacies or health food stores, the value must also include assurance of their purity, quality, bioavailability (ability to be absorbed and utilized by the body), and effectiveness. The chief reason we make those products available is to ensure quality. You are not guaranteed the same level of quality when you purchase your supplements from the general marketplace. We are not suggesting that such products have no value; however, given the lack of stringent testing requirements for dietary supplements, product quality varies widely.

If you have concerns about this issue, please discuss with a member of the team.

I have read and understand the above information.

## Laboratory Consent Form

Many insurance companies have a “preferred” laboratory that the patient must use for lab work to be covered by insurance. Please know that, as the patient, you are responsible for knowing the preferred lab required by your insurance company. We at Mint Health do not know the benefits of your personal health insurance policy, nor can we be familiar with all the policies of the different insurance companies for all of our patients. Dr. Buchert makes lab recommendations based on medical advice and expertise and your symptoms and health goals.

We ask that prior to your visits, you either call your insurance company or Human Resources Department to find out the preferred lab if you do not know this information. Mint Health does not take responsibility for knowing your preferred lab or knowing what lab testing may or may not be covered by your insurance policy. Also, please be aware that while a lab draw technician is located in our office, we do not process your labs and we are not responsible for your lab bills.

**I understand that all lab tests ordered by Dr. Elizabeth Buchert will be sent to an outside laboratory for processing and I will be billed separately by that lab company through my insurance company. I understand that I am responsible to pay for all lab charges, whether I have insurance, and whether it is a covered benefit of my insurance. I understand that the laboratory company will bill me separately for these lab charges, and lab bills are not from Mint Health and cannot be mediated by Mint Health.**

Lab tests include, but are not limited to, Pap smears, vaginal cultures, urinalysis and cultures, blood tests, and biopsies.

**Behavior and Mutual Respect Policy**

Our mission at Mint Health is to help you alter the trajectory of your health, and educate you on health maintenance at the level you desire to do so. As a team, we work together to provide compassionate service to our members and patients.

Our mission and values require mutual respect and appropriate behavior. Mutual respect can be defined as a feeling that something or someone is good, valuable, or important, shared between two or more people. We care for each other's thoughts and feelings and we expect respect in return. This trust is the cornerstone of a good patient/client-provider relationship.

We are grateful for the opportunity to work with you, and out of respect for all of our patients and our entire team, we have a zero-tolerance policy for behavior that is in any way abusive, disrespectful, or demanding to the providers or clinic staff. Any patient who behaves in an abusive, disrespectful, or demanding manner will be discharged from the practice.

**With my signature below, I acknowledge that I have read and understand the Behavior and Mutual Respect policy at Mint Health and agree to comply with the policy. I also understand the consequences of failing to comply.**

## **CANCELLATION AND NO SHOW POLICY**

At Mint Health, we believe that a good physician/patient relationship is based upon respect and good communication. We understand that situations arise in which you must miss or cancel your appointment. However, to be fair to all our patients and to enable us to schedule another patient who is waiting for an appointment in the slot we reserved for you, we require that you give us forty-eight (48) hours' notice that you are cancelling or rescheduling your appointment. Office appointments that are cancelled/rescheduled with less than 48 hours' notification will be subject to a \$50.00 cancellation fee.

Patients who do not show up for their appointments without a call to cancel an office appointment will be considered as NO SHOW. Patients will be subject to a \$50.00 fee for appointment No Show.

The Cancellation and No Show fees are the sole responsibility of the patient.

We understand that special unavoidable circumstances may cause you to cancel/reschedule/no show within 48 hours. Fees may be considered for waiver, but only with management approval.

If you have any questions about this policy, please speak with the practice manager. Thank you for helping us in providing better service and availability to you and all our patients!

**Please sign that you have read, understand and agree to this Cancellation and No Show Policy.**

# PATIENT PORTAL

We are honored you have chosen Mint Health as your healthcare provider! At Mint Health, we strive to provide you with the highest quality of care. We want to work together with you to ensure that you are not only aware of, but also involved in the management and improvement of your health. The Patient Portal enables you to communicate with us easily, efficiently, and securely.

## **\*WE REQUIRE USE OF THE PORTAL FOR ALL COMMUNICATION WITH OUR OFFICE\*.**

- Before you leave the office, make sure you are web enabled. Front Desk staff can help you with this.
- Be certain you have provided a non-work/employment email address to ensure your privacy.
- You will receive an email containing a secure User ID and temporary password, enabling you to access the portal.
- You can access the Patient Portal from your computer, tablet, smart phone, or through our website [www.mymintthehealth.com](http://www.mymintthehealth.com).
- Log into the portal with your User ID and password. (Your account will lock if you have three (3) consecutive unsuccessful attempts to log in, so be sure to save your login in a secure place.)
- You will get an email notifying you when your lab results have been released for you to view. Any specific instructions from the physician or nurse will be noted on the lab results.
- To view your lab results, go the left side of the web page. Click on the Lab/Diagnostic Reports button under the Medical Records category. Click on each individual report to see the results.
- Lab results are released to the Patient Portal as soon as possible after they are received by our office, generally ten business days after the lab draw.
- If your results do not appear in the portal within two weeks of your lab draw, please call to notify us.
- To assure all results are effectively communicated and to protect your confidentiality, *results will not be discussed over the phone*. You must have a follow up appointment in the office to review the results with the physician.

Please use the Patient Portal to request appointments, see billing statements, or ask questions to office staff. We ask that you do not send emails of a medical nature to our office, as our email server is not secure and we cannot guarantee your privacy.

\*Live Well! The Team at Mint Health\*
